### **Instructions for the PDF *Visa Application Form*.**

Ross/Asia participants who are not citizens of China need to obtain a visa. General instructions for this process are given in the document *Visa Information*. The current document provides step-by-step instructions for entering information into the “Visa Application Form,” a PDF file that you should have in front of you. Once the typing is finished, print that document on paper, sign and date at the end as instructed, and include it in the packet discussed in *Visa Information*.
